

# Introduction to the Forum

- Annual event started in 2011 in Prague
- More than 700 participants from 12 European countries
- All main Rosatom customer companies presented
- Opportunity to get up to date information on Rosatom homeland and global projects portfolio and procurement system
- Platform for interaction between Rosatom companies and existing or potential European suppliers
- Exhibition with broad Rosatom exposition and marketing opportunities for suppliers

**In 2013 the Forum changed the venue to International Engineering Fair in Brno (MSV) as one of the most significant industrial events in Central and Eastern Europe region**
